

# NEW FEATURED PRODUCTS

## FROM FEDERAL SIGNAL

### FT Series

**Designed for safe and reliable communication in the most challenging environments**

- Safe area and Hazardous location applications
- Engineered to withstand high ambient noise levels across various applications
- Ensures faster response times and reduces the risk of injury

### 121SLED/121ALED Magenta (121ALED-024M/121SLED-120M)

**A compact rotating warning light, now available in magenta**

- Features a parabolic reflector that rotates around a LED for 360-degree warning
- Ideal in high-ambient and harsh applications where gaining attention is critical
- 25,000-hour LEDs

### Red Global Series®

**Trusted Worldwide. Now in Red.**

- Red GRP enhances signal recognition in emergency situations
- Designed to be configurable per site or system needs
- Applications include manufacturing, oil & gas, chemical processing, and all other hazardous locations

### FB2LED Quad

**Ensure Optimal Visibility at Any Distance**

- IP69K compliant
- Indoor/outdoor use
- Available with either a Fresnel lens for warning applications or a opaque lens for status indication
