CommanderOne LE

For one-way customers, CommanderOne® LE is a simplified version of CommanderOne. It brings automatic weather-based activation to your existing one-way systems. Compatible with SS2000+ Series C Local Hardware Activation Points.

FEDERAL SIGNAL

CommanderOne®

EMERGENCY WARNING SYSTEM CONTROL
ANYTIME. ANYWHERE.

ADVANCE YOUR WARNING SYSTEMS
with CommanderOne®

CommanderOne® enables you to monitor and activate your warning sirens from any desktop or mobile device. With CommanderOne, you can leverage your existing Commander On-Premises Warning System to work smarter with our cloud-based platform.

Using our real-time weather data and siren status, you can make important decisions whenever and wherever — keeping your critical assets within reach.

SOLUTIONS FOR EVERY ENVIRONMENT
To Sync with CommanderOne®

ELECTRO-MECHANICAL SIRENS

The highest quality and most reliable outdoor warning sirens. Ideal for alerting of hazardous weather conditions, fires, dam breaches, floods and chemical spills.

ELECTRONIC VOICE SIRENS & SPEAKER ARRAYS

The highest level of clarity and voice intelligibility available in high-powered outdoor notification systems. Ideal for outdoor areas such as park and recreation areas and college campuses.

IP-ENABLED INTELLIGENT SYSTEMS

Indoor and outdoor speakers to broadcast voice announcements inside and around facilities, in standalone or networked applications.
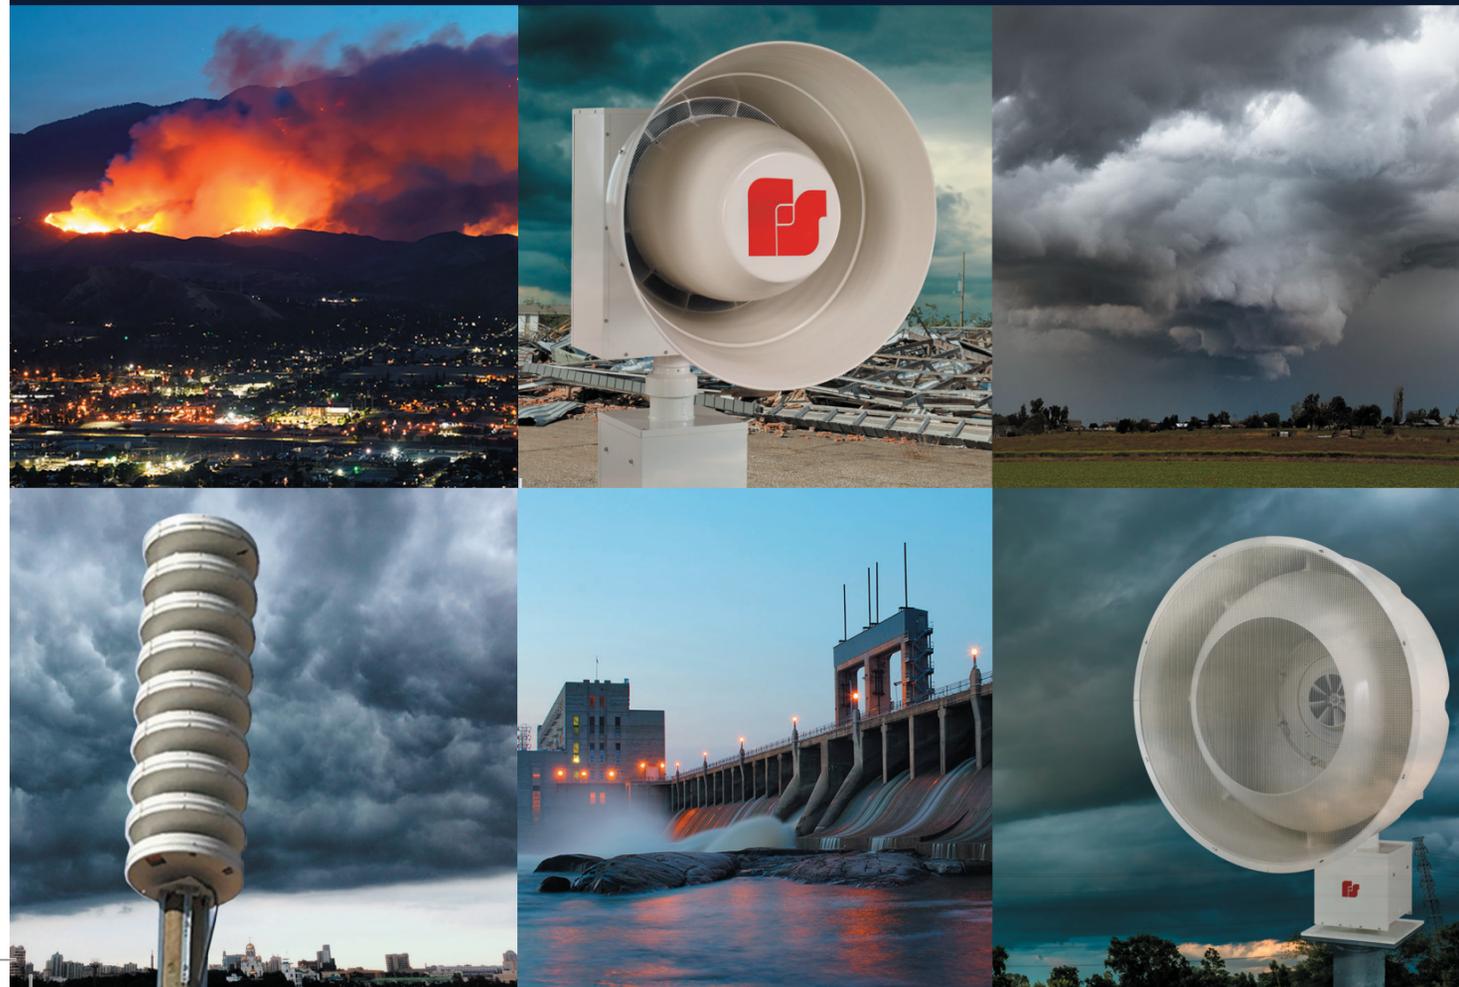

INDOOR WARNING DEVICES

Share real-time information to building occupants and personnel during emergency situations.

COMMUNICATIONS

CommanderOne can be used with a variety of communications media including LMR, cellular and satellite.

FEDERAL SIGNAL

FEATURES & BENEFITS
of CommanderOne®

ANYTIME, ANYWHERE

Access real-time data to make critical decisions wherever and whenever.

AUTOMATIC UPDATES AND SYSTEM ENHANCEMENTS

Our cloud-based platform is always improving with new features and the latest security practices.

SECURE BY DESIGN

Utilizes IPSEC over SSL, multi-factor and multi-layer authentication. Configure activations with enhanced security levels.

CUSTOMIZED MESSAGING

Quickly send a message template or a custom communication to your staff and first responders.

EASY SCALABILITY

From a few to hundreds of devices by leveraging a global network of data centers to maintain availability while securing your data.

AUTO-SYNC HOTKEYS

If a change is made to Commander, the change is made to CommanderOne automatically.
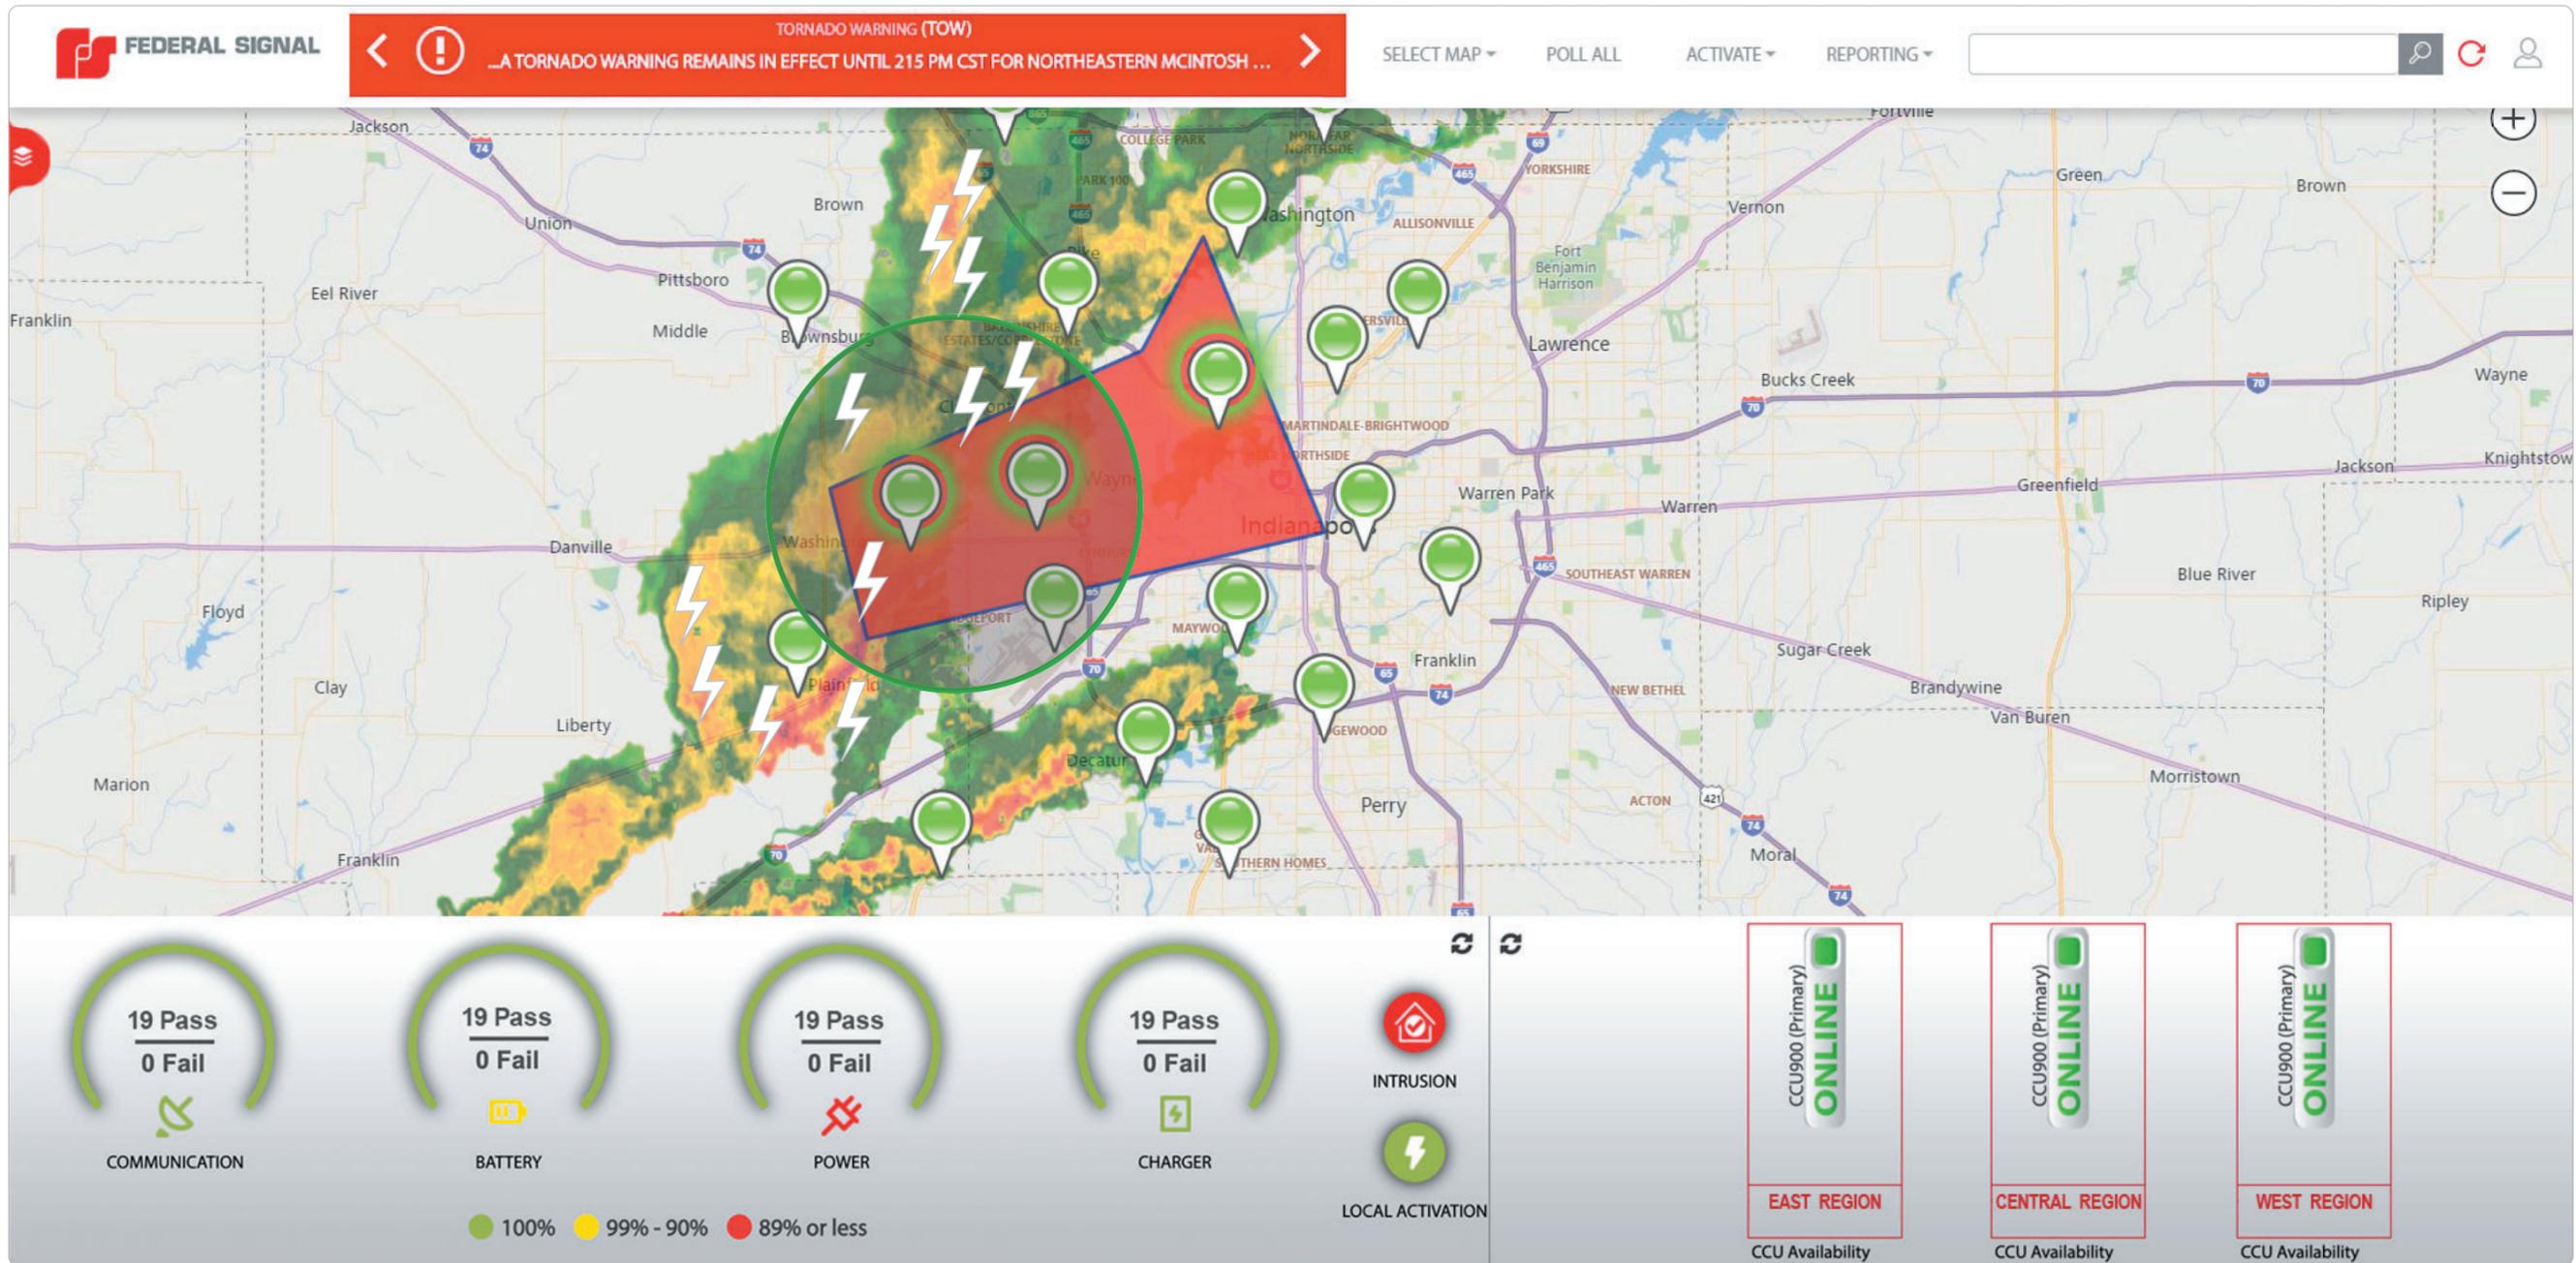

BE PREPARED AT A MOMENT'S NOTICE

CommanderOne® is secure by design, so you can remain confident in your ability to access your warning system from any web browser or our mobile app.

Web-Based Console

- Control and monitor your sirens and check system status in seconds
- Monitor weather and your siren status from the same console
- Activate predefined areas with hotkeys or activate sirens manually
- Include optional messaging with your activations

Mobile App

- Control and monitor your sirens from virtually anywhere
- Receive push notifications of siren activations and other events
- Activate predefined areas with hotkeys or activate sirens manually
- Include optional messaging with your activations

Intuitive Map Interface

CommanderOne® displays a detailed map that provides the current status of each site and control point. From here, you can monitor status and view weather to determine siren activation and communication.

Lightning Alert

The CommanderOne® Lighting Alert add-on feature is ideal to alert employees and communities in industrial plants, chemical plants, outdoor recreational areas, parks, or campuses when lighting strikes are a threat.

With the Lightning Alert feature you can define a radius around your location and be alerted via siren, email and SMS when lightning strikes within that radius.
