Federal Signal is a leader in the design, engineering, and manufacturing of indoor & outdoor mass notification solutions.

## Your Trusted Partner in warning and notification systems

At Federal Signal, we make it our mission to engineer and design high-quality indoor and outdoor warning solutions.

We service our customers with the highest regard and understand it is vital to the safety of your team, communities, and first responders to have a solution you can depend on.

Since 1901, Federal Signal has been in the safety & security business. We use state-of-the-art technologies to engineer and manufacturer products at University Park, Illinois.

As an ISO 9001:2015 certified manufacturer, we put our products through extensive testing to meet and exceed industry standards.

Our team of engineers consists of experts in mechanical, electrical, and optics. In addition, we partner with firms that specialize in firmware, embedded software and GUI development.

Our innovative CommanderOne® cloud-based solution allows you to monitor and activate your outdoor sirens and indoor notification solution from any desktop or mobile device.

Federal Signal's experienced Customer Support, trained Field Technicians, and expert Representatives and Installers are available nationwide to customize your warning solution.

With Federal Signal, you can be ensured that you have a quality product. We stand behind our product warranties.

# INDOOR & OUTDOOR MASS NOTIFICATION SOLUTIONS

FROM A NAME YOU TRUST — FEDERAL SIGNAL

### ELECTRO-MECHANICAL SIRENS

The highest quality and most reliable outdoor warning sirens. Ideal for alerting of hazardous weather conditions, fires, dam breaches, floods and chemical spills.

### ELECTRONIC VOICE SIRENS & SPEAKER ARRAYS

The highest level of clarity and voice intelligibility available in high-powered outdoor notification systems. Ideal for outdoor areas such as park and recreation areas and college campuses.

### IP-ENABLED INTELLIGENT SYSTEMS

Indoor and outdoor speakers to broadcast voice announcements inside and around facilities, in standalone or networked applications.

### INDOOR WARNING DEVICES

Share real-time information to building occupants and personnel during emergency situations.

### SPEAKERS AND STROBES

Compact indoor speakers and strobes provide visual and auditory alerts. Flashing strobes capture immediate attention communicating an alert.
