Federal Signal is a leader in the design, engineering, and manufacturing of safety signaling devices.

SAFETY IN THIS MOMENT.

Federal Signal provides critical event communication devices and warning solutions to enhance safety across all hazardous environments—from industrial manufacturing and chemical processing to mining, utilities, and energy production. Protect your workforce and facilities with our full offering of Signaling Devices and Communication Solutions.

Since 1901, Federal Signal is the leader in innovative equipment, signaling products, communication and security systems that keep workers, facilities, and our communities safe and secure.

As an ISO 9001:2015 certified manufacturer, we put our products through extensive internal and external testing to exceed industry standards.

Our engineering team combines expertise in mechanical, electrical, acoustical, optical, firmware, and software to create solutions built around your needs. By uniting these disciplines, we deliver products that work seamlessly together and perform when it matters most. This holistic approach ensures you get dependable technology that makes install easier and operations safer.

Our patented optical and acoustic designs deliver maximum light and sound when they are needed most.

From design to manufacturing, quality is built into everything we do. Our world-class warranty claim rates prove it—and we proudly stand behind every product we make.

NO ONE PUTS THEIR NAME ON MORE INDUSTRIAL AUDIBLE AND VISUAL SIGNALING DEVICES AND COMMUNICATION SYSTEMS

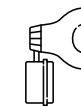

SIGNALING PRODUCT CATEGORIES

VISUAL SIGNALS

Critical warning lights for multiple applications and extreme environments

Our products include flashing lights, steady state indicators, and rotating lights. Visual signals can be used for process control, plant safety, or emergency evacuation.

AUDIBLE SIGNALS

Industrial audible alarms for essential and diverse applications

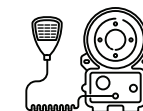

Federal Signal's offering includes sirens, sounders, speakers, horns, bells, and much more.

PUBLIC ADDRESS

High performance standalone solutions or facility wide public address systems

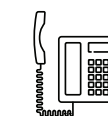

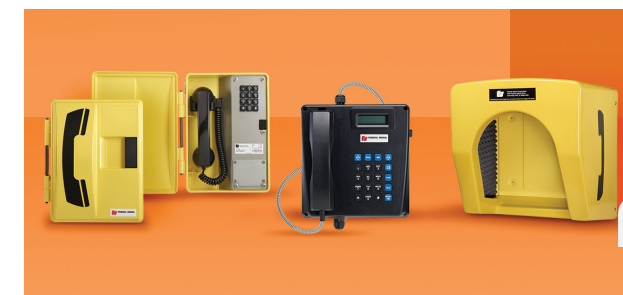

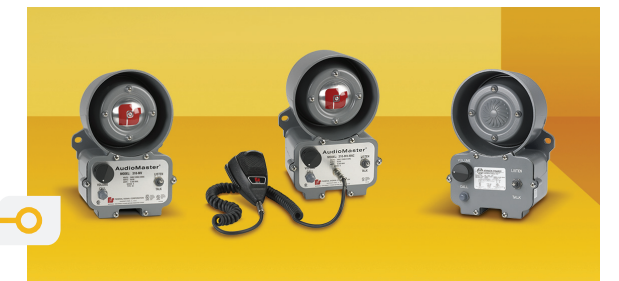

High-powered audio amplifiers, tone generators, pre-recorded voice messaging and high-quality speakers accommodate any office, industrial, or hazardous location.

INTERCOMS

Two-way modular communication with custom system design and easy expansion

Available in wall-mount, safe area, and hazardous location.

TELEPHONY

Industrial telecommunication devices available in IP and analog

Suitable for safe area and hazardous locations, we offer watertight and flameproof models.

INITIATING DEVICES

Highly visible push button, break glass, and pull stations for all environment types

Designed to minimize installation expense, discourage tampering, and withstand hazardous environments.
